# *SunSwift SBus Adapter and SunFastEthernet Adapter 2.0 Product Note*

---

Read this product note before installing either of these adapters; it contains important up-to-date information about these products.

## *OpenBoot PROM Version 2.26 Required*

### *SPARCserver 1000/1000E or SPARCcenter 2000/2000E*

Your system OpenBoot™ PROM version must be Release 2.26 or later if you are installing the SunSwift™ SBus Adapter or the SunFastEthernet™ Adapter 2.0 in SPARCserver™ 1000/1000E or SPARCcenter™ 2000/2000E systems. Release 2.26 is required on all installed system boards.

If *any* installed system board PROM is earlier than Release 2.26, you must replace its PROM before installing the SunSwift SBus Adapter or the SunFastEthernet Adapter 2.0 in your system. (See page 2 to identify your PROM version.)

---

**Note** – If your OpenBoot PROM version is not Release 2.26 or later, attempting to reboot the system with the `reboot`, `sync` ► `sync` ► `halt` and `init 0` commands will cause a system reset and the following error will occur.

---

```
OA>. TEST FAILED - System Reconfiguration .....  
OA>Swap to SBI Interrupt Status register caused trap
```

## *Determine the OpenBoot PROM Version of Your System Master Board*

- ◆ **Use the `.version` command to check your system OpenBoot PROM version:**

```
ok .version
Release 2.26 Version 1203 created 96/04/19 09:44:48
ok
```

If the results of the `.version` command display a PROM earlier than 2.26, you must upgrade all system board PROMs.

- ◆ **Contact your local service provider for a free upgrade kit for SPARCserver 1000/1000E and SPARCcenter 2000/2000E systems only.**
