

Accessing Sun Documentation Online

A broad selection of Sun system documentation is located at the following web site:

<http://www.sun.com/products-n-solutions/hardware/docs>

To locate the most current documentation at this site, select a product category. The documents at that location may include updated information that did not ship with your product, such as product notes, release notes, late-breaking news, or later revisions of manuals.

A complete set of Solaris documentation and many other titles are located at:

<http://docs.sun.com>

Ordering Sun Documentation

Fatbrain.com, an Internet professional bookstore, stocks select product documentation from Sun Microsystems, Inc. For a list of documents and how to order them, visit the Sun Documentation Center on Fatbrain.com at:

<http://www.fatbrain.com/documentation/sun>

Sun Welcomes Your Comments

Sun is interested in improving its documentation and welcomes your comments and suggestions. You can email your comments to Sun at:

docfeedback@sun.com

Please include the part number (806-4713-11) of the document in the subject line of your email.

Sun Fire™ 3800 System Fan Tray Installation Guide

Sun Fire 3800 System Fan Trays

The Sun Fire™ 3800 system has four fan trays in the rear of the system that provide front-to-back cooling. Three of the four fan trays (FT1, FT2, FT3) are needed for cooling the system. The fourth fan tray (FT0) is for redundancy.

The fan tray locations for the Sun Fire 3800 system are labeled FT0, FT1, FT2, and FT3.

Removing a Fan Tray From a Powered-On System

Caution – Within one minute of removing the fan tray, install a filler panel or fan tray to prevent the system from overheating.

1. **Make sure you have a replacement fan tray or filler panel available.**
2. **Power off the fan tray to be removed.**
Refer to the *Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual* for complete procedures for powering off the fan tray.
3. **Wait until the LEDs indicate that the fan tray is ready to be removed.**

Note – After powering off the fan tray, the green Activated LED () on the fan tray must be off (not lit) and the amber OK to remove LED () must be on (lit). You DO NOT have to power off the power grids, AC input box, or RTS module(s).

4. **Loosen the captive screws from the fan tray.**
5. **Slide the fan tray out.**
6. **Install the filler panel or new fan tray.**
7. **Tighten the captive screws.**

Installing a System Fan Tray in a Powered-On System

Caution – Within one minute of removing the filler panel, install a fan tray to prevent the system from overheating.

1. **Loosen the captive screws of the filler panel and remove the filler panel.**
2. **Slide the fan tray into the slot.**
3. **Tighten the captive screws.**
4. **Power on the fan tray.**

Refer to the *Sun Fire 6800/4810/4800/3800 Systems Platform Administration Manual* for complete procedures for powering on the fan tray.
