Sun Fire™ 6800/4810/4800/3800 Systems Getting Started

Accessing the Documentation Files

The full documentation set for Sun Fire 6800/4810/4800/3800 Systems is available on the documentation CD (doc CD)

1. **Insert the doc CD into a CD-ROM or DVD-ROM drive**

    ■ If you are accessing the doc CD from a Power Macintosh, PC, or if your system is running Volume Manager, the CD-ROM will mount automatically.

    ■ If your system is not running Volume Manager, become superuser and mount the CD-ROM manually by typing:

    ```
    # mkdir -p /cdrom/cdrom0

    # mount -o ro -F hsfs /dev/dsk/c0t6d0s2 /cdrom/cdrom0
    ```

    The above command applies to workstations with SCSI drives. If your workstation has an IDE drive, the device is `/dev/dsk/c0t2d0s2.`

2. **Open the** `sunfire_6800_4810_4800_3800_docs` **directory to access the PDF files with Adobe® Acrobat Reader. If you do not have Adobe Acrobat Reader installed, you can download it at no cost, at:** `http://www.adobe.com/products/acrobat/readstep.html`

Installation Task Map for Standalone Sun Fire 6800/4810/4800/3800 Systems

Step 1	• Verify power, air conditioning, and floor area requirements — Refer to the *Sun Fire 6800/4810/4800/ 3800 Systems Installation Guide*
Step 2	• Set up the system and connect the power cables — Refer to the *Sun Fire* 6800*/4810/4800/3800 Systems Installation Guide*
Step 3	• Connect an administrative console to access the system controller — *Sun Fire 6800/4810/4800/3800 Systems Installation Guide*
Step 4	• Power on the system — Refer to the *Sun Fire 6800/ 4810/4800/3800 Systems Installation Guide*
Step 5	• Allow the system to run through POST and ensure there are no errors, then power off the system
Step 6	• Install options and storage devices — Refer to the documentation that came with the option or storage for details
Step 7	• Power on the system — *Sun Fire 6800/4810/4800/3800 Systems Installation Guide*
Step 8	• Configure the system — Refer to the *Sun Fire Midrange Systems Platform Administration Manual* • Create additional domains (if needed) — Refer to the system administration manual for your product.
Step 9	• Install the Solaris operating environment on each domain — Refer to the *Solaris (SPARC Platform Edition) Installation Guide* • Boot the Solaris operating environment on each domain — Refer to the system administration manual for your product.

Installation Task Map for Sun Fire 4810/4800/3800 Systems in a Sun Fire Cabinet

Step 1	• Verify power, air conditioning, and floor area requirements — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Installation Guide*	
Step 2	• Set up the Sun Fire cabinet and connect the power cables — Refer to the *Sun Fire Cabinet Installation and Reference Manual*	
Step 3	• Connect an administrative console to access the system controller — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Installation Guide*	
Step 4	• Power on the Sun Fire cabinet — Refer to the *Sun Fire Cabinet Installation and Reference Manual* • Power on the individual systems — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Installation Guide*	
Step 5	• Allow the system to run through POST and ensure there are no errors, then power off the system and the Sun Fire cabinet	
Step 6	• Install options and storage devices — Refer to the documentation that came with the option or storage for details	
Step 7	• Power on the Sun Fire cabinet — Refer to the *Sun Fire Cabinet Installation and Reference Manual* • Power on the individual systems — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Installation Guide*	
Step 8	• Configure the system — Refer to the *Sun Fire Midrange Systems Platform Administration Manual* • Create additional domains (if needed) — Refer to the system administration manual for your product.	
Step 9	• Install the Solaris operating environment on each domain — Refer to the *Solaris (SPARC Platform Edition) Installation Guide* • Boot the Solaris operating environment on each domain — Refer to the system administration manual for your product.	

Installation Task Map for Rackmounting a Sun Fire System in a Sun Fire Cabinet

Step 1	• Verify power, air conditioning, and floor area requirements — Refer to the *Sun Fire Cabinet Installation and Reference Manual*
Step 2	• Set up the Sun Fire cabinet — Refer to the *Sun Fire Cabinet Installation and Reference Manual*
Step 3	• Mount the system into the Sun Fire cabinet and connect power cables — Refer to the *Sun Fire 4810/4800/3800 Systems Cabinet Mounting Guide*
Step 4	• Connect an administrative console to access the system controller — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Installation Guide*
Step 5	• Power on the Sun Fire cabinet — Refer to the *Sun Fire Cabinet Installation and Reference Manual* • Power on the individual systems — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Installation Guide*
Step 6	• Allow the system to run through POST and make sure there are no errors.
Step 7	• Power off the individual systems — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Installation Guide* • Power off the Sun Fire cabinet — Refer to the *Sun Fire Cabinet Installation and Reference Manual*
Step 8	• Install options and storage devices— Refer to the documentation that came with the option or storage for details
Step 9	• Power on the Sun Fire cabinet — Refer to the *Sun Fire Cabinet Installation and Reference Manual* • Power on the system — Refer to the *Sun Fire 6800/4810/4800/3800 Systems Installation Guide*
Step 10	• Configure the system — Refer to the *Sun Fire Midrange Systems Platform Administration Manual* • Create additional domains (if needed) — Refer to the system administration manual for your product.
Step 11	• Install the Solaris operating environment on each domain — Refer to the *Solaris (Sparc Platform Edition) Installation Guide* • Boot the Solaris operating environment on each domain — Refer to the system administration manual for your product.
